" Hello Everyone!

This past week we had the misfortune of having our East Coast Demo truck, trailer and bikes stolen, while visiting dealers in the Montreal, Canada area. We are forwarding this information globally because the bikes may turn up on Ebay or through another unauthorized channel. The hotel was near a major shipping container port so the bikes may be headed overseas. The items stolen included:

- 1) The truck is a Metallic Beige 2004 Chevy 3500 Double Cab
- 2) A Pace 36ft. Goose-Neck Trailer with Cannondale branding and Thule racks.
- 3) The 29 bikes listed below and their Serial Numbers
- 4) The driver's personal Red Ducati Monster 900 motorcycle.

Below is a list of the bikes and serial numbers that were on this truck. If you happen to locate one of these bikes or see a strange advertisement that may be in regards to these bikes, please contact Andy Schiffer or myself as soon as possible. Please pass this information on to other people within the industry and we will be doing the same.

Thank you so much!
