

Lucky Suns Gear Stolen in Seattle

Monday, 28 January 2008

My Yahoo Pipe picked up a post about a band getting their gear boosted in Seattle. I contacted the poster, expressed my condolences, and received this response from Derek of the band Lucky Suns.

"We were the 2nd band to play at The Funhouse in Seattle on Thursday Jan. 24, 2008. We finished about 11:45 pm. After our set, we began to load our cars with equipment. We were parked in the lot behind the funhouse. The parking lot is secluded. Our pedal steel player loaded his SUV with a Sho Bud pedal steel, fender tele thinline, etc. (see below).

By the time we finished loading, it was probably only 12:10 am. It didn't take more than 20 to thirty minutes to pack up. After loading we went back to the Funhouse for a drink and to listen to the next band. We listened and chatted for about twenty minutes. We left at about 12:45 pm.

Unfortunately, we didn't notice the instruments had been taken out until we got home, about 1:30 am. That was that."

Stolen Items:

- Sho-Bud LDG Pedal Steel Guitar, Serial Number: 13617

Photo credit: Jeremy of Lucky Suns
